

Dear Sir / Madam,

My name is Şefik Furkan Bayram, I am 21years old and a Final year student of the department of Computer Technology and Information Systems in Mersin University, Mersin, Turkey.

I wish to apply for an Internship position in your organization. I am inspired by the zeal to work in an international organization like yours, and I am interested in working and learning from people of a diverse culture from mine.

By working on different projects using HTML5, CSS3 and JavaScript technologies, I am successfully tutoring myself in the field of Frontend Web Development. I have worked with a few reputable companies here in Turkey as an Intern, including companies like "Tat Food Industry" where I worked as an Intern of Information Technology in 2013 and in "Telpa Telecommunication" where I worked as an Intern Frontend Developer in 2017.

I am motivated by creating healthy interaction and teamwork with my colleagues. I take responsibility of my duties and deliver the best possible results. In my free time, i usually investigate open source projects on github and gitlab. Except that, i ride a bike, play the harmonica instrument and minigolf. I hope to deliver my best and obtain a wonderful experience while working in your organization.

Thank you for taking out time to my motivation letter.
